

# Product Information Sheets

# ***“How to Read”***

## **Product Information Sheets**

*Every **Derma MD** product sheet is written to enable you, the reader, to easily find and define the information you are seeking. All the product sheets of **Derma MD** products are constructed in the same format. To use the sheets most efficiently, please note the explanation of each section in the format.*

### **Purpose of the Product:**

Every product is designed to meet a particular purpose in the treatment and/or home care of a specific skin condition. Knowing the purpose of a product will enable you to more efficiently and correctly fit the product into treatment and home care regimens.

### **Product Benefits:**

This is what feels good about the product, such as easy application, smoothes the skin, and much more.

### **Directions:**

This section instructs the user on “how to” use the products, whether it is a professional using professional grade products or the client/patient using home care products.

### **Key Ingredients:**

These are the ingredients that should be mentioned when discussing the purpose of the products with the client/patient.

**Additional Ingredients:** These ingredients are in the product to affect formulation stability, slip, preservation, and other reasons, as well as to support the product care. These ingredients usually do not affect the purpose of the product’s use on the skin, however, are important to the overall formulation.

### ***Cautions in Use of This Product:***

*Please note the contra-indications carefully for use of each product.*

# Alpha + Beta Cleanser

**Product Purpose:**

This salicylic cleanser will resurface the skin and provide deep pore cleansing to help control the acne P bacteria.

**Product Benefits:**

Helps to alleviate congested skin and to reduce the appearance of fine lines and wrinkles.

**Directions:**

Apply a dime size amount of cleanser to hand and foam with water. Massage face gently and remove with tepid water.

**Key Ingredients:**

**Salicylic Acid (5%)** – Has keratolytic activity. Increases cell turnover. It is both lipid (fat) and oil soluble, thus it can penetrate through the sebum in the follicle. It helps to dissolve dead skin cells, thus providing a more even, smoother skin texture. Helps to reduce appearance of fine lines and wrinkles.

**Alpha Lipoic Acid** – Antioxidant which helps to fight free radicals.

**Aloe Leaf Extract** - Has anti-microbial, anti-inflammatory and wound healing properties. Helps to soothe and calm the skin.

**Glycolic Acid (10%)** - Has soothing and antibacterial properties.

**Additional Ingredients:**

purified water, vegetable glycerin, avocado oil, allantoin, PG-stearate, L-ascrobic acid, vitamin E acetate, phenoxyethanol, carrageenan and grapeseed extract.

*Cautions in Use of this product: Avoid eye area...if irritation to skin develops, use 2-3 times weekly only, and begin to rotate with gentle enzymatic cleanser or antioxidant cleanser.*

# ANTIOXIDANT CLEANSER

## W/ Alpha Lipoic & Green Tea

**Product Purpose:**

This product is designed to deeply cleanse, hydrate, stimulate and tighten the skin. Suitable for all skin types especially the more mature and sun damaged skin type.

**Product Benefits:**

This gentle cleanser assists the skin in achieving a balanced, well-hydrated, healthy and glowing surface.

**Directions:**

Apply dime size amount of cleanser to hand and foam with water. Massage face and neck area gently. Remove with tepid water.

**Key Ingredients:**

**Alpha Lipoic Acid** – Acts as a universal antioxidant, being both lipid and water-soluble. It can penetrate the lipid barrier of the cell membrane and has a neutral pH; therefore it is non-irritating. Acting as a potent antioxidant, it scavenges free radicals that cause damage to the skin.

**German Chamomile Extract** – Calming and soothing to the skin.

**Glycolic Acid** - Improves cellular turnover, is water soluble.

**Aloe Leaf Extract** - Has anti-inflammatory and wound healing properties.

**Peppermint Oil** – Noted for its refreshing, cooling and bactericidal properties.

**Japanese Green Tea Extract** – Recognized antioxidant to scavenge free radicals.

**Additional Ingredients:**

purified water, saponified oil of coconut, saponified oil of olive, glycerin, panthenol, peg-stearate, allantoin, DMAE complex, sodium hyaluronate, phenoxyethanol.

*Cautions in use of this product: Avoid getting into eye area.*

# ENZYMATIC CLEANSER

**Product Purpose:**

This product is designed to gently exfoliate, hydrate and deep pore cleansing. The mild enzymes of pineapple and papaya are non-abrasive to the skin. Suitable for all skin types, including sensitive.

**Product Benefits:**

Will gently digest skin cells for better penetration of products, while also serving as an excellent makeup remover.

**Directions:**

Apply dime size amount of cleanser to hand and foam with water. Massage face and neck area gently. Rinse with tepid water.

**Key Ingredients:**

**Pineapple and Papaya Enzyme** – Natural enzymes that help exfoliate dead skin cells. Pineapple extract helps reduce sun damage and the effect of free radicals created by exposure to UV radiation.

**Aloe Vera Extract** – Has medicinal properties including antibiotic, anti-inflammatory and wound healing. Is apparent in moisturizing, soothing and calming the skin.

**Wheat Protein Amino Acid** – Provides tightening and has elastic and binding properties

**Dex-Panthenol (vitamin B)** – Penetrates quickly and effectively into the skin. Provides assistance in tissue repair. Also works as anti-inflammatory and minimizes sun damage.

**Avocado Oil** – Has excellent carrier properties and acts as an emollient. Includes bactericidal and soothing properties.

**Additional Ingredients:**

“living water”, ammonium lauryl sulfate, vegetable glycerin, cocamidopropyl betaine, chamomile extract, carboxymethyl cellulose, grape seed extract, vitamin E acetate, grapefruit, phenoxyethanol.

*Cautions in use of this product: Keep eyes closed when removing eye makeup.*

# KIWI GRAPEFRUIT TONER

**Product Purpose:**

This product is designed to remove residual grease and oil from the face while conditioning, leaving it soft and hydrated.

**Product Benefits:**

This blend of grapefruit and kiwi with witch hazel extract will help replenish all skin types for increased hydration.

**Directions:**

Apply toner onto cotton ball or gauze and dab entire facial area. Avoid getting into eyes.

**Key Ingredients:**

**Aloe Vera Gel** – Aloe penetrates the skin, applying moisture directly to the facial tissue

**Dex-Panthenol (vitamin B)** – Penetrates quickly and effectively into the skin. Provides assistance in tissue repair. Also works as an anti-inflammatory and minimizes sun damage.

**Witch Hazel Extract** - Has anti-inflammatory and wound healing properties.

**Sage Extract** – Has astringent, anti-bacterial, antiseptic and anti-inflammatory properties.

**Additional Ingredients:**

“purified water”, vegetable glycerin, chamomile, horsetail extract, comfrey, allantoin and essential oils of grapefruit and kiwi.

# ANTI-OXIDANT DAYTIME MOISTURIZING PROTECTANT

**Purpose of Product:**

This product is designed to protect the skin from UVA and UVB rays of the sun and prevent sun damage.

**Product Benefits:**

Provides 30 times your natural protection from the sun, blocking a very broad spectrum of UVA and UVB rays. Formulated in a light-moisturizing base. \* Is non-comedogenic, fragrance-free and formulated for all skin types, including sensitive and post peel.

**Directions:**

Apply daily a.m. to face, neck (include ears) & back of hands. Can be used as a daytime moisturizer and is excellent when applied under makeup.

**Key Ingredients:**

**7% Micronized Zinc** - Blocks UVA and UVB rays, protecting skin from sun damage.

**Octyl Methoxycinnamate** - Blocks UVA and UVB rays, protecting skin from sun damage.

**Octyl Salicylate**. – Blocks UVA and UVB rays, protecting skin from sun damage.

**Additional Ingredients:**

De-ionized water, glyceryl stearate, PEG-100, c 12-15 alkyl benzoate, hydrogenated vegetable oil, cetyl alcohol, cetearyl alcohol, cetearth-20, cyclomethicone, cetyl dimethicone copolyol, cetyl dimethicone, dimethicone, vitamin A, C & E, retinyl palmitate, Japanese green tea extract, chamomile extract, calendula officinalis extract, ginseng extract, ginkgo biloba, licorice extracts sodium hyaluronate, sodium PCA, citric acid, xanthan gum, tetrasodium EDTA, methylparaben, propylparaben and diazolidinyl urea

*Cautions in use of this product: Avoid getting into eyes.*

# LIPOIC ANTIOXIDANT W/ DMAE Complex

**Product Purpose:**

This product is designed to provide hydration, firming, tightening and reduce appearance of fine lines and wrinkles. A combination of antioxidants work to scavenge free radicals that cause damage to the skin and DMAE increases a lifting to the skin almost immediately.

**Product Benefits:**

A firmer, more hydrated skin appears younger and healthier.

**Directions:**

Apply once or twice a day...according to the directions of skin care specialist and/or physician. Massage gently all over face and neck. Excellent as a daytime and/or nighttime moisturizer. Designed for dehydrated, mature and dry type skin.

**Key Ingredients:**

**Copper Peptide** - Assists in tissue repair and provides collagen synthesis. Skin will be firmer, and wrinkles or fine lines less noticeable.

**Alpha Lipoic Acid** – Anti-inflammatory, lipophilic dual antioxidant to scavenge free radicals that damage the skin.

**DMAE Complex** – An antioxidant membrane stabilizer. Boosts the effects of other antioxidants, allowing skin to appear smoother, brighter and reduces appearance of fine lines and wrinkles. When used with other antioxidants, studies show it gives immediate lifting and tightening.

**Aloe Vera Extract** – An emollient with hydrating, softening, healing, antimicrobial and anti-inflammatory properties. Very moisturizing.

**Lecithin** – A natural emollient, antioxidant and hydrophilic ingredient that attracts water and acts as a moisturizer.

**Soluble Collagen Amino Acid** – Demonstrates enhanced moisture intake and therefore is more effective than collagen.

**Additional Ingredients:**

“purified water”, Caprylic/Capric Triglycerides, vegetable glycerin, sweet almond oil, avocado oil, vitamin A palmitate, vitamin E acetate, vitamin K, cetearyl alcohol (and) cetereth-20, shea butter, hyaluronic acid, chamomile extract, dex-panthenol (vitamin B), sodium PCA, phenoxyethanol, methylparaben, propylparaben and lactic acid.

# THERAPEUTIC HAND & BODY MOISTURIZER

**Product Purpose:**

Provides extreme moisture to dry, irritated skin.

**Product Benefits:**

This moisturizer assists the skin in achieving a balanced, well-hydrated, healthy and glowing surface. A polymer based suspension of natural based oil and actives for quick penetration, leaving skin with a soft silky finish.

**Directions:**

Apply both a.m. and p.m. Massage gently all over the body, especially those areas that may be extremely dry, itchy and/or irritated.

**Key Ingredients:**

**Ceramides 1, 3 & 6** – Studies show the effects of these ceramides enhance the skin's lipid delivery system and strengthen the defensive shield.

**Copper/zinc/selenium/manganese** – These metal peptides allow for prompt skin penetration. Also helps support skin repair, skin tightening and protects against UV damage.

**Saccharide Isomerate** – Assists in protecting the skin from environmental drying agents and provides hydration and moisture retention.

**Green Tea (camellia sinensis leaf extract) & Vitamin E (alpha tocopherol)** – Potent Antioxidants.

**Additional Ingredients:**

water, helianthus annuus (sunflower) seed oil, prunum armeniaca (apricot) kernel oil, algae, calendula officinalis flower oil, arnica montana flower extract, phytosphingosine, cholesterol, sodium lauroyl lactylate, saccharomyces /calcium ferment, polymethyl methacrylate, carbomer, aminomethylpropanol, phenoxythanol, iodopropynyl butyl carbamate.

# Mtxl<sup>3</sup> THERAPY CRE'ME

## Product Purpose:

Designed to improve moisture retention while nourishing the skin's surface and balancing sebaceous output. Excellent for sensitive and dry to combination skin.

## Product Benefits:

The unique ingredient referred to as **Matrixyl 3000®** (a newer version of Matrixyl), an anti-wrinkle component made of combined peptides, will help to protect against UV's damaging rays, hyperpigmentation and harsh environmental factors. The cream will help to improve collagen synthesis and aid the healing process.

## Directions:

This unique cream is to be applied all over the face and neck, and under the eye area and "crow's feet." Apply a small amount of cream directly following the application of Lyne-tox Therapy. Around the eye, it will act as an occlusive agent on top of the Lyne-tox Therapy. Use both a.m. and p.m.

## Key Ingredients:

**Matrixyl 3000® (palmitoyl oligopeptide and palmitoyl tetrapeptide-3)** – Increases the syntheses of the dermal matrix molecules essential for preserving the skin's youthful appearance and feel. Aids in the formation of Collagen I, III and IV.

**Marine Algae** – Helps to normalize the skin's moisture content and provide suppleness to the epidermis.

**Retinyl Palmitate** – Acts as a keratinizing agent by helping skin stay soft and plump, as well as improving its water-barrier properties.

**Ascorbyl Palmitate** – An antioxidant.

**Yeast Extract** – Provides tightening.

**Calendula Extract** – An emollient that has healing, soothing and anti-inflammatory properties. Can be used for sensitive and acneic skin.

**Carrot Oil** – A carotene-rich emollient that has been indicated for use with acneic skin conditions and wrinkles. Derived from the carrot root.

**Glutathione** – Helps to enhance the skin's cellular metabolism and oxygen utilization. Has been found to protect the fibroblast against toxic actions caused by oxidation.

**Co-Enzyme Q10 (ubiquinone)** – An antioxidant.

## Additional Ingredients:

"purified water", sunflower seed oil, apricot kernel oil, cetearyl alcohol and ceteareth-20, hydrolyzed glycosaminoglycans, sodium hyaluronate, dex panthenol (vitamin B<sup>5</sup>), ceramide 3, ceramide 6, ceramide 1, arnica oil, niacinamide, quercetin, folic acid, cats claw, mushroom, walnut extract, pineapple, hawthorn berry, mango butter lycopene, squalane oil.

# ASTAXANTHIN TRI-COMPLEX

## Product Purpose:

This product is an anti-inflammatory antioxidant and contains a combination of anti-aging ingredients that work together to slow-down the aging process.

## Product Benefits:

Some of its benefits are to fight free radicals, protect skin from UV-damage, suppress hyperpigmentation, lighten and brighten skin, stimulate collagen synthesis, produce long lasting moisture, improve skin's elasticity, improve and help normalize dry, patched skin, in addition to having anti-keratinization and anti-wrinkle properties. The caviar sphere (liposome) releases the ingredients internally. Skin will feel silky and appear soft and supple. Due to its acute inflammation properties it is an excellent professional product to be used immediately after microderm, non-ablative laser, chemical peels, IPL, and photo-facial to reduce erythema (redness) quickly.

## Directions:

Apply once or twice daily according to your skin care specialist and/or physician. Massage gently all over face and neck. NOTE: Spheres must dissolve to release all active ingredients. Once you see the pink sphere, the pump has been primed. Pump only once, wait a few seconds to allow the spheres to flow through the pump before pumping again. Once sphere has dissipated into the skin, proceed with skin care regime. Designed for all types of skin including the most sensitive.

## Key Ingredients:

**Astaxanthin** - An anti-inflammatory antioxidant, derived from the carotenoid family. Studies show that it has stronger antioxidant activity (10 times higher than beta-carotene), and can be more than 100 times more effective as antioxidant than Vitamin E. The highest percentage of astaxanthin appears to come from the micro-algae (*Haematococcus pluvialis*) found in Hawaiian waters.

**NOTE:** Astaxanthin comes in a concentrated oil form and costs approximately \$1,800 per pound, similar to Vitamin K, and is found in plants and micro algae. Higher percentages of astaxanthin can be found in such foods such as salmon or shrimp. Is considered an essential to normal growth and survival and has been attributed vitamin – like properties. Taken as an oral supplement to provide energy, fight oxidative stress, free radical damage.

**Caviar Extract** - Contains micro-nutrients to feed and nourish the skin, improves elasticity, skin appears firmer and more supple. Excellent for oily and mature dehydrated skin in need of revitalization.

**NOTE:** Caviar extract includes vitamins A, D, E, B1, B2 and B6. Contains constituents including cobalt, copper, iodine, iron, magnesium, silicon and zinc. Amino acids present are glutamic acid, glycine, methionine, lysine, arginine, histidine, and aspartic acid. Caviar also has essential and sulfurated amino acids and unsaturated fatty acids.

**Palmitoyl Pentapeptide-3** - A lipophilic peptide that counteracts lines and wrinkles. Proven to stimulate collagen synthesis, produces long lasting moisture retention and smoothes the skin.

**NOTE:** In Paris, France, July 2, 2002, results of a random double-blind trial suggest palmitoyl pentapeptide improves the appearance of photo-damaged facial skin. Dr. Larry Robinson, with Procter & Gamble Company®, Ohio, US, presented the findings at the Congress of Dermatology. Self-assessment data indicated that the peptide formula showed improvements in the appearance of age spots, circles under the eyes and skin firmness. Overall, the results suggest that palmitoyl pentapeptide reduces the appearance of photo-aged skin both by standardized measures and self assessment.

**Retinol** - A natural anti-aging ingredient that helps diminish and eliminate appearance of fine lines and wrinkles. Retinol is responsible for anti-keratinization, improves skin's elasticity, assists in the normalization of dry, patched skin and improves photo damage.

**Copper Tripeptide-1** - Essential for collagen synthesis and assists with tissue repair. Utilized in almost every living cell in the body. Third most abundant trace mineral element in the body

**Vitamin C**- An antioxidant.

**Additional Ingredients:**

cyclomethicone, dimethicone (acts as a silicone), butylene glycol, glycerin (conditioning agent), , water, carbomer, polysorbate 20, soybean oil (smoothing ingredient, and has a high content of vitamins A, E and K), sea kelp extract (stimulating, revitalizing and nourishing), guar gum, papain enzyme (digest dead skin cells), purple coneflower (provides firming and tightening), white orchid extract (antioxidant), ascorbic acid (water soluble antioxidant), benzophene 3 (an oil-soluble UV absorber with absorption rates within the UVA and UVB peak ranges, acts as a sunscreen chemical ingredient), caprylic/capric triglyceride, DMDM hydantoin (preservative), imidazolidinyl urea, propylparaben, methylparaben (preservative), ginger root oil.

# ASTAXANTHIN “CONCENTRATE” TRI-COMPLEX

## Product Purpose:

This product is an-anti-inflammatory antioxidant and contains a combination of anti-aging ingredients that work together to slow-down the aging process.

## Product Benefits:

Some of its benefits are to fight free radicals, protect skin from UV-damage, suppress hyperpigmentation, lighten and brighten skin, simulate collagen synthesis, produce long lasting moisture, improve skin's elasticity, improve and help normalize dry, patched skin in addition to having anti-keratinization and anti-wrinkle properties. Due to its acute inflammation properties, it is an excellent professional product to be used immediately after microderm, non-ablative laser, chemical peels, IPL, VPL, Levulan and photo-facial to reduce erythema (redness) quickly.

## Directions:

Apply once or twice daily according to your skin care specialist and/or physician. Massage gently all over face and neck. Designed for all types of skin, including the most sensitive.

## Key Ingredients:

**Astaxanthin** - An anti-inflammatory antioxidant, derived from the carotenoid family. Studies show it has stronger antioxidant activity (10 times higher than beta-carotene) and can be more than 100 times more effective as antioxidant than Vitamin E. The highest percentage of astaxanthin appears to come from the micro-algae (*Haematococcus pluvialis*) found in Hawaiian waters.

**NOTE:** *Astaxanthin comes in a concentrated oil form and costs approximately \$1,800 per pound, similar to Vitamin K. Found in plants and micro algae. Higher percentages of astaxanthin can be found in such foods such as salmon or shrimp. It is even considered as essential to normal growth and survival, and has been attributed vitamin – like properties. It is taken as an oral supplement to provide energy, fight oxidative stress, free radical damage.*

**Palmitoyl Pentapeptide-3** - A lipophilic peptide that counteracts lines and wrinkles. Proven to simulate collagen synthesis, produces long lasting moisture retention and smoothes the skin.

**NOTE:** *In Paris France, July 2, 2002, Results of a random double-blind trial suggest palmitoyl pentapeptide improves the appearance of photo-damaged facial skin. **Retinol** - A natural anti-aging ingredient that helps diminish and eliminate appearance of fine lines and wrinkles. Retinol is responsible for anti-keratinization, improves skin's elasticity, assists in the normalization of dry, patched skin, and improves photo damage.

**Copper Tripeptide-1** - Essential for collagen synthesis, and assists with tissue repair. Utilized in almost every living cell in the body. Third most abundant trace mineral element in the body.

**Vitamin C (stable)** – An antioxidant.

## Additional Ingredients:

cyclomethicone, dimethicone (acts as a silicone), butylene glycol, glycerin (conditioning agent), water, carbomer, polysorbate 20, soybean oil (smoothing ingredient, and has a high content of vitamins A, E and K), sea kelp extract (stimulating, revitalizing and nourishing), guar gum, papain enzyme (digest dead skin cells), purple coneflower (provides firming and tightening), white orchid extract (antioxidant), ascorbic acid (water soluble antioxidant), benzophene 3 (an oil-soluble UV absorber with absorption rates within the UVA and UVB peak ranges, acts as a sunscreen chemical ingredient), caprylic/capric triglyceride, DMDM hydantoin (preservative), imidazolidinyl urea, propylparaben, methylparaben, (preservative), ginger root oil.

# “D” PUFF EYE REPAIR GEL

**Product Purpose:**

Designed to reduce appearance of under-eye dark circles, puffiness, reduces fine lines and wrinkles.

**Product Benefits:**

Some of its additional benefits are to fight free radicals, protect skin from UV-damage, firm and tighten skin.

**Directions:**

Apply small amount twice daily onto cleansed, dry skin. When applying, use ring finger and pat gently under eye area and on brow bone. Avoid getting into the eye. Allow to absorb and proceed with skin care regimen. Designed for all skin types, including the most sensitive.

**Key Ingredients:**

**Astaxanthin Extract** - Anti-inflammatory antioxidant, arrives from the carotenoid family. Studies show that it has stronger antioxidant activity (10 times higher than beta-carotene) and can be more than 100 times more effective as an antioxidant than Vitamin E. The highest percentage of astaxanthin appears to come from the micro-algae (*Haematococcus pluvalis*) found in Hawaiian waters.

**Hesperiden** - An herb such as used in antihistamines. Relieves puffiness around the eye area.

**Vitamin K** - Used to reduce dark circles.

**Chamomile Flower Extract** - Used for soothing.

**Cucumber Extract** - Used for moisture-binding, moisture-regulating, soothing, tightening and has anti-inflammatory properties. Excellent used in eye products.

**Witch Hazel** – Extract with anti-inflammatory properties.

**Ascorbyl Palmitate** - Antioxidant that helps to facilitate the incorporation of vitamins such as A, D and C.

**Vitamin E** - A photoprotectant antioxidant (oil-soluble), and free radical scavenger. Also serves as a preservative due to its ability to protect against oxidation. Used in a moisturizer, it is well absorbed through the skin, thus demonstrates a strong affinity with small blood vessels.

**Additional Ingredients:**

dimethicone/vinyldimethicone crosspolymer, silica, steareth 20/dipeptide2, comfrey extract, euphrasia officinalis extract, rosa canina fruit extract, ginkgo biloba, calluna vulgaris (heather) extract, phenoxyethanol, propylparaben, azulene.

# MICRO PEEL CRE'ME

## Product Purpose:

This product contains a combination of anti-aging ingredients that work to exfoliate skin in a progressive versus aggressive treatment, much like a series of microdermabrasion treatments.

## Product Benefits:

Some of its benefits are to fight free radicals, gently exfoliate dead skin cells, leave the skin soft and supple, while at the same time, it allows the skin better penetration in receiving other products.

## Directions:

Apply small amount of Micro-Peel Cre'me to a clean dry face with hands or facial brush. Work peel cre'me in a circular motion. Massage approximately 2-3 times. Clean with a warm shammy or washcloth until all crystals are removed. Rinse thoroughly with cool water (if too abrasive for sensitive skin, use a small amount of water softening the crystals in cre'me.) **Avoid getting into eyes.**

## Key Ingredients:

**Astaxanthin Extract** - Anti-inflammatory antioxidant, arrives from the carotenoid family. Studies show that it has stronger antioxidant activity (10 times higher than beta-carotene), and can be more than 100 times more effective as antioxidant than Vitamin E. The highest percentage of astaxanthin appears to come from the micro-algae (*Haematococcus pluvialis*) found in Hawaiian waters.

**Aluminum Oxide** – Crystals.

**Soy Oil & Soy Protein** – Used as a smoothing ingredient and has similar action to natural biological precursors. Has small molecular structure. Said to stimulate the synthesis of collagen, elastin, proteoglycans and structural glycoproteins.

**Olive Oil** – A Carrier oil with good lubricant properties.

**Aloe Vera** – Soothing properties

## Additional Ingredients:

deionized water, methyl gluceth 20, cetyl alcohol, glyceryl stearate, stearic acid, PEG 100 stearate, althea herb (marshmallow), ivy pellitory root, cucumber extract, elder flower, witch hazel, lecithin, retinal palmitate, panthothenate acid (B5), calcium ascorbate (vitamin c), tocopherol (vitamin e), dimethicone, octyl methoxycinnamate (sunscreen), essential oils, methylparaben and propylparaben, BHT.

*Cautions in Use of this product: Do not get into eyes. If crystals do, flush immediately with cool water.*

# Mtxl<sup>3</sup> FIRMING SERUM

## **Purpose of the Product:**

For use in an anti-aging program for mature and sun damaged skin to produce younger, more supple skin. Professional and home care use.

## **Product Benefits:**

Improves moisture retention, tightens, firms and stimulates collagen synthesis, giving skin a more youthful appearance.

## **Directions:**

Apply both a.m. and p.m. Use all over the facial and neck. Allow to dry. Proceed with suggested skin care protocol. Always use sunscreen in the a.m.

## **Key Ingredients:**

**Matrixyl 3000 (palmitoyl oligopeptide and palmitoyl tetrapeptide-3)** – Increases the syntheses of the dermal matrix molecules essential for preserving the skin's youthful appearance and feel. This aids in the formation of Collagen I, III and IV.

**Dex-Panthenol (vitamin B)** – Penetrates quickly and effectively into the skin and provides assistance in tissue repair. It also works as an anti-inflammatory and minimizes sun damage.

**Marine Algae** – Provides moisture to the skin.

**Sodium Hyaluronate** – Occurs naturally in the dermis. Is a natural moisturizer with excellent water-binding capabilities.

**Hydrolyzed Vegetal Protein** – A complex to stimulate Collagen I and IV synthesis as studies have shown. In addition, **Hydrolyzed Vegetable Protein Extract** improves cohesion and thickening of collagen fibers.

**Hydrolyzed Glycosaminoglycans** – A natural moisturizer.

**Yeast Extract** – Provides tightening and firming.

## **Additional Ingredients:**

water, alteromonas ferment extract, hydrolyzed marine collagen, silanetriol, glutamylamidoethyl imidazole, fructose oligosaccharides, vegetal protein, camellia sinensis leaf extract, saccharomyces/calcium silicon, zinc, iron, copper & magnesium ferment, foeniculum vulgare extract, agaricus bisporum umbellatus (mushroom) extract, niacinamide, magnesium ascorbyl phosphate, super oxide dismutase, peg & glycerol cocoate, echinacea angustifolia leaf extract, saccharide isomerate, xanthan gum phenoxyethanol.

# COPPER/CoQ10 MOISTURIZER

## Product Purpose:

This product is designed to provide collagen synthesis and assist in tissue repair as copper is utilized by every living cell in the body. It is also essential for other enzymes including cytochrome c oxidase (energy production) and superoxide dismutase (antioxidation). Copper is also essential for other enzymes including lysyl oxidase (cross linking of elastin and collagen).

## Product Benefits:

Using this product on a daily basis will provide firmer, tighter skin with a more even skin tone and lessen appearance of fine lines and wrinkles.

## Directions:

Apply once or twice a day, according to your skin care specialist. Massage gently all over face and neck. Excellent as a night time moisturizer to feed and nourish the skin. Skin will feel soft and silky, and the appearance of fine lines will appear less noticeable. Excellent for all skin types.

## Key Ingredients:

**Copper Peptide Complex (yeast extract & cupric sulfate)** - Assist in tissue repair and provides collagen synthesis. Skin will be firmer and wrinkles or fine lines less noticeable.

**Ceramides 3, 6 & 1** – Naturally occurring skin lipids. Necessary for skin's moisture retention, leaving skin soft and supple.

**Algae** – Water binding agent that helps to normalize skin's moisture content.

**Squalene** – An emollient that has antioxidant and stimulating properties.

**Ascorbyl Palmitate** – Stable vitamin C, but with no irritation such as L-ascorbic acid.

**Hydrolyzed Glycosaminoglycans** – Provides moisture retention. This ingredient has a very small molecular structure that provides better penetration into the outer layers of the skin.

**Green Tea** – Potent Antioxidant that helps fight bacteria.

**Panthenol (vitamin B5)** – Excellent for hydration and wound healing. Studies have shown that it can be a beneficial ingredient when used for acne.

**Co-Enzyme Q10** – Potent Antioxidant.

**Idabenone** – Potent Antioxidant.

## Additional Ingredients:

water, sunflower seed oil, apricot kernel oil, calendula, sodium hyaluronate, manganese sulfate and zinc sulfate, phytosphingosine, cholesterol, sodium lauroyl lactylate, thiocetic acid, carrot oil, saccharide isomerate, lycopene, phenyltrimethicone, xanthan gum, phenoxyethanol, iodopropynyl butylcarbamate, aminomethylpropanol, polymethyl methacrylate, carbomer and spirulina extract.

# RETINOL COMPLEX

## Repair Serum

### Product Purpose:

This unique formula is designed with potent percentages of L-retinol, which is a derivative of vitamin A which provides increased cellular turnover and works on lessening the appearance of fine lines and wrinkles. (**NOTE:** peeling will begin approximately after 2<sup>nd</sup> day of usage.)

### Product Benefits:

A unique combination of key ingredients exfoliates dead skin cells, while additional ingredients will nourish and feed the skin. L-retinol is a patented technology that will penetrate without the irritation associated with retinoic acid.

### Directions:

Apply 2-3 pumps of product into hand. Massage gently all over face and neck. Use after cleansing face, both a.m. and p.m. as recommended by your skin care specialist or physician.

**\*Daily use of this product will contribute to a younger, glowing, toned and healthy complexion for all skin types.**

### Key Ingredients:

**L-retinol** - Vitamin A derivative. Non-irritating such as retinoic acid. Increases cellular turnover.

**Cassia Betaglycan** - Boosts immunity. Derived from cassia bark.

**L-sodium lactate** - Improves cellular turnover. Derived from yogurt.

**L-sodium hyaluronate** - Holds 1000 times its weight in water improving moisture retention.

### Additional ingredients:

sodium PCA, l-lactic acid and D-glucuronic.

*Cautions in Use of this product: Not recommended for sensitive skin types, or acne stage 3 or 4 until inflammation is under control.*

# ALPHA + BETA CREME

**Product Purpose:**

To digest dead skin cells, providing a firmer, smoother more even skin tone. Helps with acne and reduces the appearance of fine lines and wrinkles.

**Product Benefits:**

This unique formula of glycolic acid in a 15% strength, combined with salicylic acid will gently exfoliate dead skin cells, keeping skin feeling smooth and providing a more even skin tone.

**Directions:**

Apply 1-2 pumps, massage all over face and neck, according to the skin care specialist. Avoid the eye area.

**Key Ingredients:**

**Aloe Vera Gel** – Provides anti-inflammatory, hydration, softening, healing and anti-microbial properties.

**Eyebright** – Provides firming and tightening.

**Glycolic Acid** – Reduces corneocyte cohesion and corneum layer thickening where there is dead skin build up. Improves hydration and increases the skins' ability to bind water.

**Salicylic Acid** – Acts as a keratinization agent.

**Witch Hazel** – Acts as an astringent.

**Additional Ingredients:**

deionized water, golden seal, stearic acid, glycerin, hempseed oil, dexapanthenol, glyceryl stearate, vitamin E acetate, sodium hyaluronate, sodium PCA, dimethicone, borage oil, oil of evening primrose, allantoin, methylparaben, lactic acid, propylparaben, grapeseed extract, carrot seed oil.

# PIGMENT LIGHTENER

## Product Purpose:

This ultra gentle skin lightening serum is designed to lighten, brighten and tighten the skin. Also used to treat hyper pigmentation, dark spots and melasma.

## Product Benefits:

The combined ingredients of Kojic (8%), L- Arbutin and lactic acid work together to lighten dark spots and hyper pigmentation. Licorice root has UV absorbing action properties and acts as an antioxidant.

## Directions:

Use both a.m. and p.m. onto cleansed skin or suggested regimen by your skin care specialist. Avoid eye area.

**NOTE:** *When using this product, it is an absolute necessity that the Anti-Oxidant Daytime Moisturizing Protectant be used daily as your daytime moisturizer or your suggested sunscreen protectant by your skin care specialist or physician.*

## Key Ingredients:

**Kojic Acid (8%)** – Derived from mushrooms (aspergillus) which is found to inhibit melanin formation.

**L- Arbutin (2%)** – A strong lightening from bearberry. Found to be a melanocyte inhibitor. Works on lightening the dark spots and hyper pigmentation. Non-toxic.

**L- Lactic Acid (3%)** – Provides softening & cellular turnover.

**Magnesium Ascorbyl Phosphate** – Stabilized version of vitamin C.

**Licorice Extract** – Anti-irritant and has the ability to absorb UV rays. Works as a tyrosinase inhibitor. As a depigmenting agent, licorice extract is described as 75 times more effective than ascorbic acid.

## Additional Ingredients:

witch hazel extract, D-boldine extract, L-castor oil, methyl glycol, L-retinol AGP, xanthan gum, gamma amino butyric acid (GABA), L-glutathione, resveratrol.

*Cautions in Use of this product: **MUST use sunscreen** when using this product or any type product that contains bleaching agents and or tyrosinase inhibitors.*

# LIP XPLOSION

**Product Purpose:**

This product is designed to increase volume of lips and hydrate as it reduces appearance of furrows and fine lines. Lips will feel soft, supple and sexy!

**Product Benefits:**

This uniquely developed lip product has a combined blend of ingredients that will gently exfoliate the dead skin cells, increase volume, while protecting them from the UV damaging rays. Vitamin E will protect delicate lips from free radical damage.

**Directions:**

Apply to clean dry lips twice daily. **NOTE:** Do not apply outside lip area or inside mouth.  
**\*Excellent for both males and females.**

**Key Ingredients:**

**Niacin** – Increases stimulation of blood flow. Lips appear fuller instantly

**Retinol** – Smoothes texture of lips (increasing turnover)

**Camphor** – Soothes dry, flaking skin

**Tocopherol (vitamin E)** – Antioxidant

**Titanium Dioxide** – Physical sunblock

**Additional Ingredients:**

Paraffinum liquidum, ethylene/propylene/styrene copolymer, butylene/ethylene/styrene copolymer, menthol, flavor, fragrance, propylparaben,. May contain: mica, red 30 lake, red 7 lake, iron oxides.

## “D” ZIT ANTI-ACNE PADS

**Product Purpose:**

These pads are designed to resurface and alleviate congested skin. They will also help to reduce sebum with oily skin.

**Product Benefits:**

This unique formula of glycolic acid, combined with salicylic acid will gently exfoliate dead skin cells, keeping skin feeling smooth and providing a more even skin tone. Salicylic acid's properties of being lipid and oil soluble are also known to kill the acne 'p' bacteria leaving the skin free of blemishes.

**Directions:**

Cleanse skin and wipe pad over the affected area on face or body. Apply hydrating and or other therapeutic products prescribed by skin care specialist or physician. Best when used in the evening. Always use sunscreen daily.

**Key Ingredients:**

**Salicylic Acid (5%)** – A lipid and oil soluble beta hydroxy exfoliates gently by helping to dissolve the top layer of the corneum cells. Has keratolytic activity.

**Glycolic Acid (10%)** – Improves hydration by enhanced moisture intake and sloughs off dead skin cells. Found in sugar cane. It provides better penetration for other products due to its molecular structure.

**Additional Ingredients:**

organic grain alcohol, aloe vera gel, allantoin, comfrey extract.

## “D” ZIT BLEMISH AWAY

**Product Purpose:**

This special patented blemish spray is designed to hydrate and soothe as it alleviates congested skin.

**Product Benefits:**

This patented formula with niacinamide is known to be an antioxidant, anti-inflammatory and kill the acne 'p' bacteria leaving the skin free of blemishes.

**Directions:**

Cleanse face. Proceed by misting blemish spray all over facial and other problem areas twice daily. Let dry.

**Key Ingredients:**

**Niacinamide (B3)** – A vitamin proven to be an antioxidant, anti-inflammatory and reduce the acne “p” bacteria.

**Additional Ingredients:**

distilled water, aloe vera and sodium pca.

# LYNE-TOX

## Therapy +

### Product Purpose:

Designed to stimulate collagen, I, III and IV, deep down with the skin and improve skin plumpness, moisturization, elastin and hyaluronic acid production, collagen thickening and dermal relaxation.

### Product Benefits:

The unique combination of Argirelene<sup>®</sup>, a complex combination of peptides (**acetyl hexapeptide-3 and Matrixyl 3000<sup>®</sup>**), will allow the muscles to contract less creating smoother skin. Improves and helps to reduce the appearance of fine lines and wrinkles around the eye area and frown lines.

### Directions:

Apply both a.m. and p.m., onto clean, dry skin. Apply primarily in the gabella area (between the eye brows) and around the “crow’s feet” area. Pat gently and allow to absorb. Proceed with Mtxl<sup>3</sup> Therapy Cre’m+.

### Key Ingredients:

**10% Argirelene<sup>®</sup> (acetyl hexapeptide-3)** – Inhibits the formation of the SNARE complex, a core membrane protein that mediates neuronal exocytosis. Their inhibition by short synthetic peptides can decrease facial wrinkle formation .

**Matrixyl 3000 (palmitoyl oligopeptide and palmitoyl tetrapeptide-3)** – Increases the syntheses of the dermal matrix molecules essential for preserving the skins youthful appearance and feel. This aids in the formation of Collagen I, III and IV.

**Marine Collagen Polypeptides/Silanetriol** – Helps restore normal cell metabolism and aid in collagen biosynthesis. Protects skin elasticity and tone with an added plumping effect.

**Glutamic Acid** – Cytokine like effect, there by, improving the skins defense.

**Phyto Plankton** – Is rich in high molecular weight polysaccharides and oligo-metlas. This acts on the dermo-epidermal junction.

**Fructose Oligossacharides** – Provides intense moisture retention and helps to calm.

**Hydrolyzed Soy Protein** – A complex to stimulate Collagen I and IV synthesis as studies have shown. In addition, **Hydrolyzed Vegetable Protein Extract** improves cohesion and thickening of collagen fibers.

### Additional Ingredients:

water, acocia senegal gum, yeast extract, marine algae, xanthan gum, uncaria, tomentosa extract, porphyridium cruentum, extract, sodium hyaluronate, menthe piperita (peppermint) leaf extract, niacinamide, glutamylamidoethyl imidazole acrylates/c10-30 alkyl acrylate crosspolymer, aminomenthylpropanol, phenoxyethanol, idodpropynyl butylcarbamate.

# “SOY” HEALING MOISTURIZER

**Product Purpose:**

The uniqueness of this product will continue to heal, hydrate and soothe skin after various exfoliating peels.

**Product Benefits:**

The specific combination of ingredients with healing and soothing will continue to assist healing and hydrating after various exfoliating peels.

**Directions:**

Apply “Soy” Healing Moisturizer all over areas in which the various exfoliating treatments/peels have been performed to maintain soothing and moisturizing.

**Key Ingredients:**

**Aloe Vera Gel** – Provides excellent hydrating, softening and soothing qualities.

**Soy Wax** – Plant derived wax that acts as an occlusive agent to provide humectancy.

**Coconut, Olive & Sesame Oil** – Hydrating and moisturizing.

**Quercitin** – A plant derived bioflavonoid with instant healing characteristics.

**Rosehip Oil** – Rich in omega fatty acids for healing.

**Bovine Cartilage** – Cartilage extract for healing properties.

**Tea Tree Oil** – Anti-bacterial agent.

**Sphingolipids** – Vehicle to enhance healing and delivery of active ingredients to target area.

**Additional Ingredients:**

aloe oil, cetearyl alcohol, cetareth-20, shea butter, dexpanthenol, vitamin E acetate, copper peptide, allantoin, azulene.

# HEALING BALM R<sub>x</sub>

## With Soy

**Product Purpose:**

This one product contains a combination of healing, hydrating and soothing agents that work to occlude and protect skin after various types of exfoliating treatments.

**Product Benefits:**

Helps to heal, soothe and moisturize skin. Quercitin is a bioflavonoid that has instant healing characteristics. Combined with additional ingredients such as copper peptide, which acts as an antibacterial and skin repair agent. the skin will have capabilities for quicker healing.

**Directions:**

Apply Healing Balm R<sub>x</sub> with Soy all over areas in which the levulan treatment was performed. Continue applying to keep skin moist, protected and hydrated.

**Key Ingredients:**

**Quercitin** – A plant derived bioflavonoid with instant healing characteristics.

**Rosehip Oil** – Rich in omega fatty acids for healing.

**Copper Peptide 1%** – Antibacterial, tissue repair and bio-circulation stimulant.

**Shea Butter** – Acts as an occlusive agent and works as a carrier.

**Soy Wax** – Plant derived wax which acts as an occlusive agent to provide humectancy.

**Olive Oil** – A carrier oil with good lubricant and healing properties.

**Bovine Serum** – Cartilage extract for healing properties.

**Sphingolipids** – Vehicle to enhance healing and delivery of active ingredients to target area.

**Aloe Leaf Oil** – Healing, soothing and moisturizing properties.

**Additional Ingredients:**

aloe vera gel, coconut oil, sesame seed oil, cetearyl alcohol, ceteareth-20, dexapanthanol, vitamin E acetate, tea tree oil, allantoin, azulene.

# 15% & 30% ALPA-BETA PEELS

## PROFESSIONAL ONLY

### Purpose of Product:

These professional strength peels are designed to aid in refining fine lines, dislodge comedones and impact the papillary dermis and reticular dermis. This leads to dermal changes that will work on synthesis of new collagen.

### Product Benefits:

**Available in two strengths.** This unique combination of glycolic acid and salicylic acid will enhance the turnover of cells in the epidermis retaining surface cells for an extended time, resulting in the gentle exfoliation of dead skin. The skin will feel smoother due to the exposure of younger, healthier skin cells and develop a more even skin tone. Collagen and elastin will proliferate in the dermal layer, resulting in the refinement of fine lines. Re-hydration is also a benefit of the use of this product.

### Directions:

Cleanse the face thoroughly with enzymatic cleanser. Degrease skin with Grapefruit-Kiwi Toner until all traces of residue have been removed. Apply Vaseline around the corners of mouth and under and around the "crow's feet" area.

Proceed by dispensing approximately 1 tablespoon of either 15% or 30%. Apply to skin using either a cotton tail (large Q-tip) or 4 x 4 gauze in the following order\*:

1. Forehead
2. Outer perimeter of face
3. Nose
4. Upper lip area
5. Cheeks
6. Under the eye area (avoid getting too close to the lower lid)
7. Neck

**Note:** *\*If you're applying to other areas of the body such as legs, feet or hands, apply in that area **first**, then proceed with the face and neck as indicated above.*

Apply evenly and re-apply to those resistant areas. Procedure can be as little as one minute and up to 10 minutes according the level of ERETHEMA (where skin is very pink and blushed.)

**Note:** *For a first time treatment...even though the patient is not showing erythema, limit the procedure to a five minute program. The client could show a delayed reaction.*

Remove with cool cotton pads beginning at the eye area first. Be sure to remove all acid. Apply a Derma Soothe Mask according to directions. Proceed with Astaxanthin Concentrate Tri-Complex and Anti-Oxidant Daytime Moisturizing Protectant.

### Key Ingredients:

**Glycolic, Lactic & Malic Acids** – Digest dead skin cells and increase hydration

**Salicylic Acid** – Provides strong exfoliation and deep mitotic stimulation

**Precautions:** *Patch test must be used to determine allergy or skin sensitivity. Do not use this product if skin test shows any redness or skin irritability. Do not use on sensitive skin or on skin with open sores. Do not use if patient profile (Patient Profile MUST be done prior to this procedure) indicates that the product is not appropriate. Avoid using with a Retin-A user for 12 months, herpes simplex, lactating women, allergic to salicylic and for those who have had recent depilatory procedures (waxing.) Cautions in Use of this product: Not to be used with sensitive skin or acne stage 3 or 4 skin condition.*

# RASPBERRY ENZYME EXFOLIANT

## PROFESSIONAL ONLY

### Purpose of Product:

This product is designed to exfoliate, soothe, hydrate and detoxify.

### Product Benefits:

The enzymes will digest the dead skin cells, leaving a softer, smoother, more even skin tone. Additional fruit acid blend increases cell turnover and assists in tissue repair.

### Directions:

Cleanse face with Enzymatic Cleanser or cleanser of choice according to skin type. Rinse with tepid water and dry. Apply the Raspberry Enzyme Exfoliant with a fan brush all over the face and neck. Can be used with steamer for extra softening-approximately 12" from face.

**Note:** Do not use steamer if client has couperose skin. Leave on approximately 10 minutes. Remove with tepid water and proceed with facial treatment.

### Key Ingredients:

**Green Tea Extract** – Antioxidant.

**Raspberry Extract** – Antioxidant.

**Dex-Panthenol (vitamin B)** – Penetrates quickly and effectively into the skin, provides assistance in tissue repair. It also works as an anti-inflammatory and minimizes sun damage.

**Pineapple and Papain** – Enzymes that have the ability to dissolve keratin naturally and gently.

**Fruit Acid Blend** - (lactic, malic and tartaric=10%) The combination of these acids will assist in reduction of corneocyte cohesion and corneum layer thickening where there is a buildup of dead skin cells. They also improve skin hydration by enhanced moisture uptake as well as increased binding of water to the stratum corneum. Assists in smoothing of fine lines and wrinkles.

**Ginseng Extract** – Increases circulation, speeds up wound healing, moisturizes, softens and heals.

**Rosehip Extract** – Assists in tissue regeneration and calming the skin.

**Arnica Extract** – Has properties associated with antiseptic, astringent, antimicrobial, anti-inflammatory, circulation stimulating, and healing.

### Additional Ingredients:

SD alcohol and angelica extract

**pH:** 3.0

**Precautions:** Patch test must be used to determine allergy or skin sensitivity. Do not use this product if skin test shows any redness for skin irritability. Do not use on sensitive skin or on skin with open sores. Do not use if patient profile (Patient Profile MUST be done prior to this procedure) indicates that the product is not appropriate. Avoid using with a Retin-A user for 12 months, herpes simplex, lactating women, allergic to salicylic and for those who have had recent depilatory procedures (waxing.) Cautions in Use of this product: Not to be used with sensitive skin or acne stage 3 or 4 skin condition.

# PAPAYA & PUMPKIN MASQUE

## PROFESSIONAL ONLY

**Product Purpose:**

This unique masque is designed for use in anti-aging and acne treatment programs to stimulate cell turnover.

**Product Benefits:**

This special active crème base masque re-texturizes, smoothes, moisturizes, hydrates and tightens the surface of the skin. The skin is clarified and conditioned, and redness and irritation are reduced.

**Directions:**

Gentle enough to be used two to three times a week. Apply with fan brush a thin layer of masque onto cleansed skin. Allow to dry and remain on skin approximately 15-20 minutes. Remove using warm, tepid water and sponges or 4x4 moistened, soft gauze. Proceed with skin care regimen. Avoid eye area.

**Key Ingredients:**

**Papain & Pumpkin Seed** – Exfoliates and digests dead skin cells.

**Kaolin Clay** – Works on bringing impurities to the surface, helps to tighten skin.

**Japanese Green Tea** – Antioxidant to scavenge free radicals.

**Additional Ingredients:**

deionized water, tapioca starch, glyceryl stearate, PEG-100 stearate, kaolin, cetearyl alcohol, cetearth-20, avocado (persea gratissima) oil, cetyl alcohol, carbomer conjugate - 1, butylene glycol, comfrey extract (symphytum officinale) extract, beeswax, BHA, methylparaben, propylparaben, phenoxyethanol, fragrance, annatto.

# HYDRATING GEL MASQUE

With Aloe & Azulene  
PROFESSIONAL ONLY

## Product Purpose:

This masque was designed for post microdermabrasion, laser treatments & peels to soothe and hydrate, dry and dehydrated skin. Also can be used immediately after waxing and extractions.

## Product Benefits:

This unique masque will hydrate, soothe and reduce erythema.

## Directions:

Apply a thin layer of gel masque to cleansed, dry skin all over face and neck. Avoid eye area. Allow to set for 10-15 minutes. Use warm sponges to remove. Make certain all of masque is removed.

## Key Ingredients:

**Aloe Vera** – Known for its anesthetic, antibacterial and tissue restorative properties. The aloe free gelatinous inner leaf is extracted and filtered to provide excellent hydrating, softening and soothing qualities.

**Azulene** – A deep blue crystalline substance extract from the essential oil of matricaria and chamomile flowers; known for its soothing properties. The deep blue color is used as a natural colorant and also used for its herbal scent. The most expensive part of the plant.

**Panthenol** – Excellent for hydration and wound healing. Studies have shown that it can be a beneficial ingredient when used for acne.

**Glycerin** – Glycerin is a humectant due to its water-binding capabilities. Helps the skin to retain moisture.

**Algae** – Water binding agent that helps to normalize skin's moisture content.

**Ascorbyl Palmitate** - Stable vitamin C, but with no irritation such as L-ascorbic acid.

## Additional Ingredients:

water, spirulina platensis, saccharide isomerate, glycereth-7 trimethyl ether, menthol USP, xanthan gum, phenoxyethanol, iodopropynyl butylcarbamate, essential oils

*Cautions in Use of this product: Do not get into eyes*

# SEAWEED HONEY MASK

## Product Purpose:

This mask was developed for mature skin types. This combination of ingredients will provide suppleness, moisture, tightening and firming as it nourishes and feeds the skin with additional antioxidants and calming properties.

## Product Benefits:

This specially formulated crème base will revitalize, moisturize, hydrate as it occludes the skin with nourishing antioxidant and potent anti-aging ingredients to increase firming and tightening.

## Directions:

Apply with fan brush or spatula a thin layer of mask onto cleansed dry skin. ***Note; For additional firming & tightening, apply a thin layer of Derma MD Mtxl-3000 Therapy Crème under the mask and allow to absorb.*** Allow mask to dry and remain on skin approximately 15-20 minutes. Remove using tepid water and sponges or 4x4 moistened soft gauze. Proceed with skin care regime and finalize with Derma MD Antioxidant Daytime Moisturizing Protectant.

## Key Ingredients:

**Ascorbyl Palmitate** – Antioxidant

**Algae (seaweed extract)** – Revitalizes and moisturizes, providing suppleness, tightening and firming while nourishing the skin.

**Honey Hydrates** – Moisturizes, tightens and occludes.

**Apricot Kernel Oil** – Occlusive and moisturizing. Contains high content of vitamin C.

## Additional Ingredients:

water, helianthus annuus (sunflower) seed oil, Alpha bisabolol, saccharide isomerate calendula oil, yeast extract, glycerine, lavender, carbomer, phenoxyethanol.

*Cautions in Use of this product: Do not get into eyes*

# ASTAXANTHIN ANTI-WRINKLE MASK

## Product Purpose:

This mask was designed for mature, dehydrated and Rosacea type patients. Can be used immediately post medical treatments to give additional antioxidant properties, protect and soothe skin. This supercharged glycerin, assists in protecting skin from environmental drying agents, while it helps to eliminate degeneration of cell tissue.

## Product Benefits:

Due to its anti-inflammatory antioxidant properties, this mask will reduce erythema (inflammation) and effectively hydrate skin and reduce appearance of wrinkles by binding water in the skin.

## Directions:

Apply a thin layer of Derma MD AstaXanthin Concentrate Tri-Complex onto cleansed dry skin (face and neck)... Proceed with a layer of AstaXanthin Anti-Wrinkle Gel Mask (avoid getting into eyes.) Allow to set for 15 minutes. Use warm sponges to remove. Once removed, continue with skin regime and finalize with Derma MD Antioxidant Daytime Moisturizing Protectant.

## Key Ingredients:

**AstaXanthin** – Anti-inflammatory/antioxidant

**Ascorbyl Palmitate** – Antioxidant

**Algae (seaweed extract)** – Stimulates, revitalizes, moisturizes and nourishes skin

**Saccharide Isomerate** – Glycerin that hydrates. Augments wrinkle reduction.

**Ascorbyl Palmitate** – Stable vitamin C, but with no irritation such as L-ascorbic acid.

**Yeast Extraction** – reduces blemishes, vesicles and erythema.

## Additional Ingredients:

water, menthol, lipoic acid, vitamin B complex, hydrolyzed glycosaminoglycans, sodium hyaluronate, glycerine, Lavender, carbomer, phenoxyethanol.

*Cautions in Use of this product: Do not get into eyes*

# RX RESURFACING GEL

## PROFESSIONAL ONLY

### Product Benefits:

Improves the cellular turn over and reduces the appearance of large pores and gives a healthy glow to the skin.

### Directions:

The patient/client must fill out a patient profile for suitability and any contra-indications and complete a consent form. A home care regime should be in place before the treatment and any pre-treating completed. **A patch test is mandatory.**

1. Cleanse with Enzymatic Cleanser.
2. Apply eye pads.
3. Apply a petroleum based product to corners of mouth and lips. If clients have a risk of sensitivity, then you may wish to apply a small amount of product to the nasal area.
4. Apply gel to the face starting at the forehead to check sensitivity. The patient may feel the sensation of tingling with this treatment. Ask them how much on a scale of 1-10 to determine their reaction. Work down the sides of the face, then over the nose and mouth area. Leave the peel for 2-5 minutes for medium and 5-10 for deep. You can also have the patient use a fan to relieve the tingling. A small cotton swab can be given to the patient to gently touch the affected area.
5. Some areas may turn red very quickly. These are called "hot spots" and should be monitored. You may neutralize these areas.
6. Remove the peels with the Enzymatic Cleanser using tepid water and pat dry.
7. Apply a layer of Astaxanthin Concentrate, then the Azulene Hydrating Masque, leave 10 minutes. Remove residue with tepid water and apply Matryxl<sup>3</sup> Serum or Cream followed by a liberal amount of Antioxidant Daytime Moisturizing Protectant.

Prescribe a suitable home care program for the following two days, excluding any resurfacing products. Always perform patient/client call-back.

### Key Ingredients:

**30% Glycolic Acid** – Acid from sugar cane. Has the smallest molecular structure compared to lactic, tartaric and malic acids. Reduces corneocyte cohesion and corneum layer thickening where excess dead skin cells have built up.

**10% Retinol** – A fat soluble vitamin and an anti-oxidant. A compound that may protect against disease by neutralizing unstable oxygen molecules (free radicals).

**5% Lactic Acid** – Helps to increase the level of ceramides in the stratum corneum with a concomitant improvement in the barrier function. The increased ceramides improve the skin's resistance to dryness.

**pH** – 1.7

### Additional Ingredients:

purified water, aloe vera gel, ginseng root extract, chamomile extract, extracts of chlorella and centella asiatica, olive oil, glyceryl stearate, hyaluronic acid, stearic acid, green tea extract, wheat protein hydrolysate, cetearyl alcohol, cetearth-20, vitamin E acetate, olive squalene, shea butter, soy lecithin, extract of usnea barbata, grape seed extract, red cabbage leaf extract.

**Precautions:** Patch test must be used to determine allergy or skin sensitivity. Do not use this product if skin test shows any redness or skin irritability. Do not use on sensitive skin or on skin with open sores. Do not use if patient profile (Patient Profile MUST be done prior to this procedure) indicates that the product is not appropriate. Avoid using with a Retin-A user for 12 months, herpes simplex, lactating women, allergic to salicylic and for those who have had recent depilatory procedures (waxing).

# AESTHETICIANS RETINOL GEL PEEL

## PROFESSIONAL ONLY

### Product Benefits:

Improves the cellular turn over and reduces the appearance of large pores and gives a healthy glow to the skin.

### Directions:

It is recommended that the patient/client fills out a patient profile for suitability and any contraindications, and completes a consent form. A home care regime should be in place before the treatment and any pre-treating completed. **A patch test is strongly recommended.**

1. Cleanse with Enzymatic Cleanser
2. Apply eye pads
3. Apply a petroleum based product to corners of mouth and lips. If clients have a risk of sensitivity, then you may wish to apply a small amount of product to the nasal area.
4. Apply gel to the face starting at the forehead to check sensitivity. The patient may feel the sensation of tingling with this treatment. Ask them how much on a scale of 1-10 to determine their reaction. Work down the sides of the face, then over the nose and mouth area. Leave the peel for 2-5 minutes for medium and 5-10 for deep. You can also have the patient use a fan to relieve the tingling. A small cotton swab can be given to the patient to gently touch the affected area.
5. Some areas may turn red very quickly. These are called "hot spots" and should be monitored. You may neutralize these areas.
6. Remove the peels with the Enzymatic Cleanser using tepid water and pat dry.
7. Apply a layer of Astaxanthin Concentrate, then the Azulene Hydrating Mask, leave 10 minutes. Remove residue with tepid water and apply Matryxl<sup>3</sup> Serum or Cream followed by a liberal amount of Antioxidant Daytime Moisturizing Protectant.

Prescribe a suitable home care program for the following two days, excluding any resurfacing products. Always perform patient/client call-back.

### Key Ingredients:

**20% Glycolic Acid** – Acid from sugar cane. Has the smallest molecular structure compared to lactic, tartaric and malic acids. Reduces corneocyte cohesion and corneum layer thickening where excess dead skin cells have built up.

**10% Retinol** – A fat soluble vitamin and an anti-oxidant. A compound that may protect against disease by neutralizing unstable oxygen molecules, called free radicals.

**5% Lactic Acid** – Helps to increase the level of ceramides in the stratum corneum with a concomitant improvement in the barrier function. The increased ceramides improve the skin's resistance to dryness.

pH – 3.0

### Additional Ingredients:

purified water, aloe vera gel, ginseng root extract, chamomile extract, extracts of chlorella and centella asiatica, olive oil, glyceryl stearate, hyaluronic acid, stearic acid, green tea extract, wheat protein hydrolysate, cetearyl alcohol, cetareth-20, vitamin E acetate, olive squalene, shea butter, soy lecithin, extract of usnea barbata, grape seed extract, red cabbage leaf extract.

**Precautions:** Patch test must be used to determine allergy or skin sensitivity. Do not use this product if skin test shows any redness or skin irritability. Do not use on sensitive skin or on skin with open sores. Do not use if patient profile (Patient Profile MUST be done prior to this procedure) indicates that the product is not appropriate.
